Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

 SAYS • I need quick and accurate answers to my questions. • Explain this concept in simple words. • I need quizzes to test my knowledge. • I want a personalized learning path. • Summarize this chapter for me.	 THINKS • I want to understand topics better. • I wish I had an AI assistant to help me anytime. • It would be great to get quizzes and summaries instantly. • A personalized study plan will help me stay on track. • Learning should be simple, interactive and engaging.
 DOES • Asks questions on different topics. • Reads explanations and understands concepts. • Generates quizzes for practice. • Summarizes long lessons or notes. • Follows a personalized learning path and improves knowledge.	 FEELS • Confused when concepts are hard. • Overwhelmed with too much information. • Frustrated when answers are not clear. • Motivated after getting simple explanations and quizzes. • Confident and satisfied with personalized learning guidance.

PERSONA NAME
Student / Self-Learner
