

No. of Functional Features Included in the Solution

Date	9 July 2026
Team ID	SWTID-2026-8977
Project Name	EduGenie Google Gemini Powered Learning Assistant
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	Intelligent Question Answering	Allows users to ask educational questions and receive accurate AI-generated answers.	AI Learning Engine	Done	High
2	Concept Explanation	Provides simple and easy-to-understand explanations for complex academic concepts.	AI Learning Engine	Done	High
3	AI-Powered Quiz Generation	Generates topic-specific quizzes to help users assess their understanding.	Quiz Module	Done	High
4	Educational Text Summarization	Summarizes lengthy educational content into concise and meaningful notes.	Summarization Module	Done	High
5	Personalized Learning Path	Creates customized learning roadmaps based on the user's selected topic or learning goal.	Recommendation Module	Done	High
6	Google Gemini API Integration	Connects the application with Google Gemini to generate intelligent educational responses.	API Integration	Done	High

7	FastAPI Backend Services	Processes user requests, communicates with Gemini API, and returns responses efficiently.	Backend	Done	Medium
8	Responsive Web Interface	Provides a user-friendly and responsive interface for interacting with EduGenie across devices.	Frontend (HTML, CSS, JavaScript)	Done	Medium

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	6
Additional / Nice-to-Have Features	2
Features Tested & Verified	8

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	Responsive Web Interface	Home Page, Question Input, Quiz Interface, Results Display
2	Backend / Logic	AI Request Processing	FastAPI Backend, Request Validation, Response Handling
3	Database / Storage	User Data Management	SQLite Database, Learning History, Quiz Results
4	API / Integration	AI Service Integration	Google Gemini API, REST API Communication
5	Security / Authentication	Secure API Access	API Key Management, Input Validation, Secure Communication (HTTPS)
